The Oro Moraine provides clean water to 25,000 people and supports local biodiversity. While partially protected, Greenbelt designation could ensure stronger, long-term safeguards.

Join us for an interactive event to explore what Greenbelt protection could mean for the Oro Moraine. Through discussions and feedback stations, we'll examine its benefits, challenges, and next steps.

Your voice matters! Let's shape a vision for the future and show decision-makers why protecting the Oro Moraine should be a priority.
